Profile

An IT professional with one year of experience as a Technical Specialist Support and React Developer, skilled in cloud computing and web development. I am excited to bring forward the skills I have grasped. Always open to new opportunities to expand my scope of knowledge.

Work Experience

January 2024

Technical specialist support and React Developer

I worked as a Technical Specialist at HahuCloud Technologies, I was responsible for maintaining the technical aspects of the server and assisting customers with their technical inquiries. I undertook React projects, further expanding my development skills.

July 2020-August 2020

Front-End developer at Purpose Black

This internship demonstrated my skills in front-end development, including React, JavaScript, and HTML/CSS. I was able to work effectively as part of a team and to meet deadlines.

June 2022 – August 2022

System testing at Ethio Telecom

In this internship, I participated in the system testing team which handled planning, execution, defect reporting, and, bug fixing. This experience lead me to see other aspects of the technical part and helped me grow in a new work environment and overcome challenges.

April 2023

Front-end developer at a Game Jam event

I participated in a game jam event as a front-end developer in which I participated as a fresh beginner to the gaming world. I participated in Designing the user interface (UI) for the game, Coding the UI in HTML, CSS, and JavaScript, and Working with the game's developers to ensure that the UI is functional and meets the game's requirements to help the project stand out.
